# Planning Limitless Possibilities

We are planners, designers, project managers, engineers and sustainability experts who have completed thousands of installations for Office, Medical and Education applications. Our proficiency in the planning stage can save you significant time and money. Bring us in early for expert consultation.

- We accommodate special requests
- We research new materials or alternative configurations
- We ease the stress of large, complicated projects

SOUTHWEST **SOLUTIONS** GROUP

# Logistics in Action

We coordinate all the logistical details from planning to final installation. Our modular components are designed to be easy to ship and install anywhere in the world. Our process facilitates reliable timelines for all parties involved in a project.

- Project Registration
- Order Process
- Lead Times
- Special Materials
- Scheduling Process
- Shipping Process
- Replacements

---

# Executing for Excellence

From concept to completion, our team of experts will support you throughout the process of designing, building and installing your project. We have five decades of experience collaborating with clients and executing with excellence.

Our installations combine the look and flexibility of hand-crafted furnishings with the precision and sustainability of modern manufacturing.

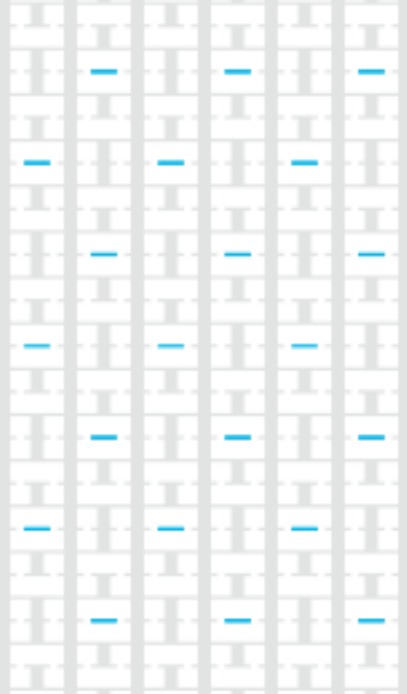

---

# Bringing Custom Together

The Southwest process is designed to insure a smooth installation. Our nationwide network of installers are pro-active problem-solvers dedicated to their craft. We are committed to delivering your perfect fit.

## Built to Last

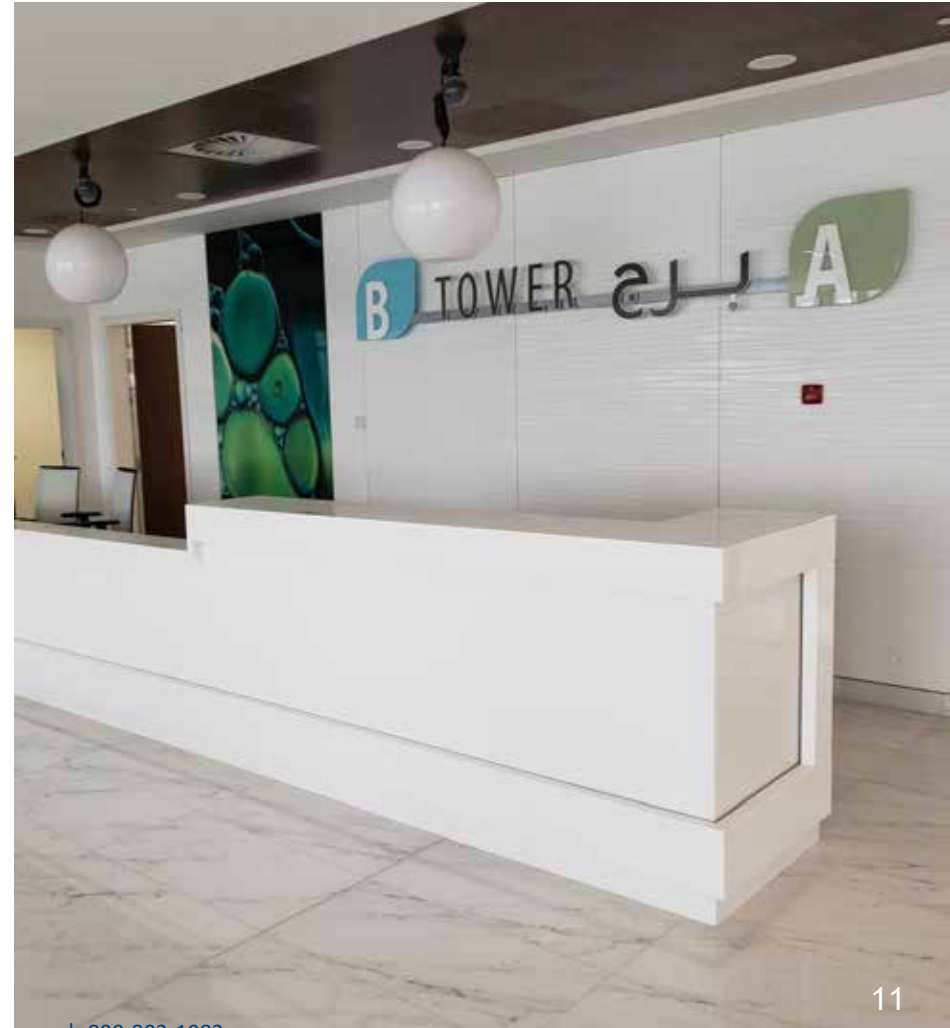

Southwest Solutions Group's modular casework creates the look of beautiful, built-in furnishings, while being built to withstand the rigorous demands of an active workplace.

Our *Lifetime Warranty* on all of our products is your assurance that our team is committed to the quality and long term success of your project.
