

AUTOMATIC ROLLING DOORS

Southwest Solutions Group's Automatic Rolling Doors are ideal for any athletic storage application. These motorized doors can be easily opened and closed with a push of the button. Made of double walled aluminum, these rust resistant doors are available in several colors. Doors are available in widths up to 14' and 20' feet high. Unlike traditional hinged doors these doors are space efficient with no intrusive doors to block walkways.

Security and Control Options:

- Automatic Remote Controls
- Key Switch Security Controls
- Key Pad Security Controls

Additional Benefits:

In most cases doors can be designed to fit your existing shelving.

Doors provide a clean stylish look for your athletic facility.

Doors are available in widths up to 14' wide.
