

We specialize in healthcare solutions that maximize floor space and improve the flow of materials and information to enhance productivity, ergonomics, and safety. From automated space-saving storage and shelving systems; HIPAA compliant scanning and records lifecycle management; and stainless steel and metal modular cabinets and casework, we can help you maximize your resources. We have numerous GPO contracts and will assist you throughout the entire planning, design, and installation process.

## Stainless Modular Casework

Stainless modular casework upper and lower cabinets help organize materials and control the spread of germs, bacteria, and viruses in healthcare facilities.

## Sterile Surgical Supply Storage

These adjustable racks offer an ergonomic and sanitary solution for storing sterile packs in your sterilization area to prevent contamination and improve patient safety.

## HIPAA Compliant Scanning

We offer onsite and offsite HIPAA compliant scanning services, information management consulting, and document indexing services.

## Hospital Bedlifts

Hospital bedlifts store up to five beds in a footprint slightly larger than a single bed. These automated vertical storage racks improve space efficiency and productivity for storing beds, gurneys, and stretchers.

## Pharmacy & Lab Storage

Flexible pharmacy and lab storage shelving improves the workflow of medical products and can be easily adapted to your changing needs.

## High Density Storage

High density shelving doubles your storage capacity or reduces your storage space by half. These space saving systems store a wide variety of small to large items, enhance inventory control, security and overall efficiency.

## Built-In Wall Cabinets

Built-in casework cabinets allow for easy and sterile storage anywhere in your hospital. Cabinets store all types of items such as catheters, sterile scopes, and surgical supplies.

## Pharmacy Casework

Pharmacy casework enhances picking accuracy and productivity with tilted shelves and drawers designed specifically for storing medications.

## Pathology Storage

Automated pathology storage machines bring paraffin blocks, tissue samples, and histology slides to an ergonomic waist high level to maximize picking efficiency and storage space.

## Fold Down Wall Seating

Fold-down wall chairs provide comfortable temporary seating that uses less space in patient rooms, waiting rooms, reception areas, and more.

## Wire Storage Products

We have all types of wire storage products to make your medical facility productive and space efficient. Keep your vital supplies organized, hygienic, easily accessible, and stored at the point of use.
