

WeaponWRX™ STORAGE SYSTEM

INFO SHEET

SHELVING SYSTEMS

UNIVERSAL WEAPONS STORAGE

by Spacesaver®

The WeaponWRX™ storage system by Spacesaver® was designed specifically for demanding law enforcement weapons storage applications. The rugged, modular steel frames can be configured to fit your storage space and outfitted with any combination of specialized accessories to fit your unique storage requirements.

Weapons and related accessories can be stored how you want, where you want.

FEATURES:

- Multiple storage configurations for any type of small arms – rifles, shot guns, hand guns, tasers, M4, M16, AR-15, MP5, M249, M240, etc.
- Weapons can be stored with optics and other accessories mounted to the weapon
- Made in the U.S.A
- Rugged all steel construction
- Durable powder coat paint – many standard colors available
- Modular construction – interchangeable parts - user reconfigurable
- Infinite configurations of accessories allow for complete end-user customization and flexibility for future needs
- Shares components with Spacesaver's industry leading UWR® Universal Weapons Rack and FrameWRX® Storage System product lines
- Units are 36" wide, 84" tall and 13" deep (Custom sizes available)
- Units bolt together to create a continuous wall
- Single-sided (attaches to wall) or double-sided (free standing)
- Can be mounted to Spacesaver's mobile carriages for double the storage capacity in the same space
