SPACESAVER HIGH-DENSITY  
MOBILE STORAGE SYSTEMS

T h e C o n c e p t

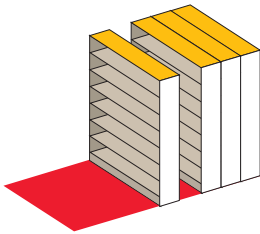

MAXIMIZE YOUR STORAGE CAPACITY

WHILE MAKING THE MOST OF YOUR AVAILABLE SPACE

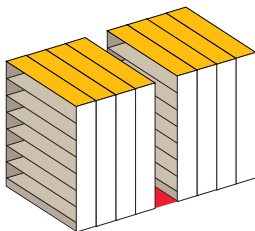

Compare Spacesaver High-Density Mobile Storage with conventional systems. No other solution is as cost or space-efficient.

Conventional stationary lateral files, shelving and storage cabinets require fixed aisles that waste space.

Spacesaver High-Density Mobile Storage Systems eliminate all but one movable aisle, in most cases saving 50% of your floor space for other productive uses.

Or, if you prefer, Spacesaver High-Density Mobile Systems allow you to double the storage capacity of your existing space.

LINEAR FILING/STORAGE INCHES (METERS) PER SQUARE FOOT (METER) OF FLOOR SPACE

	IN. / SQ. FT.	M. / SQ. M.
Spacesaver 7-Tier High-Density Mobile Shelving	42.0	11.5
7-Tier Sliding (Bi-File) Shelving	29.6	8.1
7-Tier Rotary Storage	25.4	6.9
7-Tier Open Shelving	24.7	6.8
7-Tier Pull-Out Shelving	22.6	6.2
5-Drawer Vertical Files	15.7	4.3
Mechanized Vertical	14.4	3.9
5-Drawer Lateral Files	13.2	3.6

**BOTTOM LINE**

Spacesaver High-Density Mobile Storage Systems give you significantly greater storage capacity per square foot (meter) of floor space. In many applications, Spacesaver High-Density Mobile Storage Systems are three times more space efficient than conventional filing and shelving at half the cost. Investment costs can typically be recovered in two years or less. These savings will continue year after year.

MOBILE CARRIAGES

To help eliminate non-productive space created by fixed aisles, the shelving and cabinets of Spacesaver High-Density Mobile Systems are mounted on wheeled carriages that travel on rails. To initiate carriage movement, three basic modes of operation are available – Manual, Mechanically Assisted, and Powered.

POWERED

Users open system aisles with a simple push of a button. Designed to increase productivity in active systems. Provides state-of-the-art technology and safety for users and maximum storage densities. Available with a broad array of safety features and programmable functions. Ideal for high-access applications where maximum reliability, security and protection of stored materials are key concerns.

MECHANICAL ASSIST

Users open system aisles by rotating ergonomic drive handles. Basic safety systems are available. Ideal for medium-sized storage systems with higher activity levels, heavier load factors, greater carriage lengths and a larger number of system ranges.

MANUAL

Users open system aisles by pushing handles left or right. Ideal for smaller, low-activity, limited-access storage areas.

Your local Spacesaver Area Contractor can help you decide which mode of operation is best suited to your individual system requirements.

SHELVING AND CABINET OPTIONS

The versatility of Spacesaver High-Density Mobile Systems makes it possible to mount virtually any type of storage housing on our mobile carriages, including your existing shelving and cabinets. This capability, plus our wide range of storage accessories and system configurations, gives you options limited only by your imagination.

TOTAL STORAGE SOLUTIONS

From small decentralized installations adjacent to work stations to larger installations dedicated to centralized bulk storage, Spacesaver High-Density Mobile Storage Systems have the ability to accommodate a broad range of customer needs.

Regardless of their size, weight or shape, almost any type and variety of materials can be stored using Spacesaver High-Density Mobile Storage Systems.

Spacesaver is the recognized industry leader in high-density mobile storage, with more installations than all other manufacturers combined. We have designed systems to fit almost every situation.

Spacesaver Mobile Systems have been installed in offices, hospitals, banks, libraries, schools, museums, archives, factories, warehouses, laboratories, government agencies and military bases, as well as many other uniquely demanding storage environments.

Drawing on this vast experience, we provide each customer with a storage solution that is custom-configured to meet their specific needs. Having designed and installed more than 85,000 successful mobile systems for customers with a wide range of individual requirements, chances are we have already solved a storage problem similar to yours.

## SPACESAVER HIGH-DENSITY MOBILE STORAGE SYSTEMS

Y o u C a n R e l y O n U s

As our ISO 9001 certification would suggest, Spacesaver is dedicated to the highest standards of product quality. Equally important is our commitment to customer service, both before the sale and after.

Through our extensive network of local Area Contractors, Spacesaver provides an extraordinary level of experience and competency. From architectural constraints and building codes to system design and floor-loading, we have the expertise to handle every issue and customer concern.

A storage solution that meets your unique criteria. Single-source turn-key project management. Certified system installation. Ongoing maintenance and support. Spacesaver sets a standard of professionalism, performance and responsiveness that is unmatched. We live up to our customer commitments and have the references to prove it.
