Ordering Information

HOW TO ORDER

Orders may be placed by authorized Borroughs dealers.

Mail: Borroughs Corporation
Attn: Storage Products Order Entry
3002 N. Burdick Street
Kalamazoo, MI 49004-3483
Storage Products: 1-800-748-0227 ☐ Fax: 1-269-342-4161
(Orders Only) Fax: 1-800-375-1327

All orders must show quantity, catalog number, description, color and customer purchase order number. Borroughs does not assume responsibility for errors on orders not submitted in writing.

ACKNOWLEDGMENT

Borroughs will issue a written Order Acknowledgment for each order accepted. Estimated ship dates are stated on Acknowledgments. All orders are considered correct as acknowledged. **Order changes may affect estimated ship dates!** Customer should review Acknowledgment promptly and notify Borroughs of any error. Hard copy Acknowledgments will not be issued until all the engineering has been completed. Please check and review the current status of the order on the Dealer site prior to the hard copy being mailed.

ORDER CHANGES / CANCELLATION

Order changes/cancellations always must be confirmed to Borroughs in writing. Borroughs will issue a new Order Acknowledgment for each change (see Acknowledgment). Lead times may be changed by Borroughs if necessary to accommodate order changes.

Orders can be cancelled without penalty prior to their production. If production has begun, the following conditions apply:

- **A cancellation fee equal to 20% of the net order amount will be assessed for standard products, and**
- **Custom product orders cannot be cancelled if production has begun, and**
- **Custom color orders cannot be cancelled if painted, and**
- **Customer must compensate Borroughs for special parts or materials purchased by Borroughs to produce an order.**

SMALL / MINIMUM ORDER POLICY

Borroughs has a \$75.00 net, plus shipping costs, minimum charge for any order processed.

INSTOCK QUICK SHIP PROGRAM

All items listed in bold, italic print with a bullet [*] preceding the part number are InStock at our Kalamazoo warehouse. Some quantity restrictions apply. Please call Customer Service for immediate order assistance.

SPECIAL MARKING AND PACKAGING

Custom crating, marking, palletizing or export packing is subject to special pricing; and quotations must be made in advance of order placement. Contact Borroughs' Customer Service to determine exact charges.

SHIPMENT TERMS

All orders will be shipped F.O.B. shipping point. Shipments will be "best way" with freight charged collect. Customer may request that freight be prepaid and added to the invoice.

Special carrier or special delivery arrangements can be accommodated. These should be requested in writing as part of the order. Special packaging costs, such as pallets, will be purchaser's responsibility. Orders requesting customer pickup will be accommodated; however, Borroughs reserves the right to ship orders at customer expense if customer fails to take product on the agreed date.

PAYMENT TERMS

1.5% - 10 days; net 30 days. (Different terms may be applied outside continental U.S.). No cash discounts on freight, taxes or services. A 1-1/2% per month finance charge will be added to all unpaid balances after 30 days.

DAMAGED SHIPMENTS

Responsibility - Delivery to the carrier shall constitute delivery to the customer. Borroughs' liability ends upon delivery of products to the carrier. Goods are shipped at the customer's risk. All claims for product lost or damage in transit shall be made by the customer.

Visible Damage - Should be noted on the freight bill and acknowledged by the driver's signature.

Concealed Damage - Notify the freight agent if concealed damage is found within 15 days of delivery. Request an inspection. An inspection is necessary for filing a claim.

RETURN SHIPMENTS

Return shipments may be authorized within 60 days of original shipment. You must have written authorization from Borroughs prior to any return. Authorized returns must be packaged properly using original cartons. They are to be shipped with freight prepaid by customer.

All returns are subject to a 25% restocking charge for InStock items or a 30% restocking charge for non-stocked items. Custom product items, including custom colors, may not be returned. All returns subject to any reconditioning charges determined necessary by Borroughs upon inspection of the returned goods.

PRICES

Prices in this price list supersede all previous prices and are in effect as of the date of this publication. Prices are subject to change without notice.

NOT OFFER TO SELL

Possession of this price list is not to be construed as an offer to sell the products listed. Borroughs reserves the right to discontinue any item in this list without notice. Borroughs reserves the right to change material and design specifications at any time, and without obligation to make corresponding changes in products manufactured previously.

TAXES

Any manufacturer's sales or excise tax, or any other tax or government charge now or hereafter levied upon the product, sale, use or shipment of goods shall, at the Company's option, be charged to the customer.

WARRANTY

Borroughs Corporation extends to the original purchaser from the date of purchase a 5-year limited warranty against manufacturing defects in material and workmanship.

If a Borroughs product fails to perform because of a manufacturing defect, Borroughs will examine it. If found defective, it will be repaired or replaced at our option. This warranty applies only to Borroughs products acquired directly from Borroughs Corporation or from Authorized Borroughs Dealers.

This warranty does not apply to any product which has been subject to misuse, negligence, or accident; has been damaged in shipment, storage, or installation; has been misapplied or has been modified or repaired by unauthorized persons or been repaired with non-standard Borroughs replacement parts. This warranty specifically excludes claims for indirect, incidental, or consequential damages arising in any way from a product defect. This warranty is exclusive, and exists in lieu of all other warranties, either expressed or implied.

This warranty gives you specific legal rights; you may also have other rights which may vary from state to state.

Contact your Borroughs Selling Dealer, to obtain warranty service. You must make a written claim. Provide a copy of your purchase record and a written description of the warranty problem with your claim.

If you are unable to contact your Dealer, contact: Borroughs Corporation, Customer Service Manager, 3002 N. Burdick St., Kalamazoo, MI 49004-3483.

Basic Data

Widths

Nominal unit width: 24", 36", 42" or 48"
 Actual beaded post unit width is the nominal width plus 1" ^{+1/16"}_{-0"}
 Actual angle post unit width is the nominal width ^{+1/16"}_{-0"}

Depths

Nominal depth: 12", 15", 18", 24", 30", 32" or 36"
 Actual beaded post unit depth is the nominal depth plus 15/32" ^{+1/32"}_{-0"}
 with beaded post in front and angle post in back
 Actual angle post unit depth is the nominal depth ^{+1/32"}_{-0"}

Heights

Nominal height: One foot increments from 3'3"/39" to 16'3"/195"
 Actual height is the nominal height minus 1/4" $\pm 1/16"$
 NOTE: Unit anchoring is recommended when the height to depth ratio exceeds 4.
 EXAMPLE: 7'3"/87" high x 18" deep unit has a height to depth ratio of 4.873 and should be anchored to a firm restraint such as a floor or wall

Length of Run

Actual length of beaded post shelving run is nominal unit width ^{+1/16"}_{-0"} per unit plus 1/2" for each row end.
 Actual length of angle post shelving run is nominal unit width ^{+1/16"}_{-0"} per unit

Clear Shelf Opening

Actual clear opening between beaded posts is the nominal width minus 1"
 Actual clear opening between angle posts is the nominal width minus 2"
 Vertical clearance between shelves is equal to center-to-center shelf spacing minus 1-7/32"

Vertical Adjustment

All shelves are adjustable on 1-1/2" centers

BOX EDGE PLUS® Shelf Capacities

Sway Bracing Recommendations

For Units 99" and Less in Height

		Single Row						
No. Units	8	7	6	5	4	3	2	1
No. Braces	10	9	8	7	6	5	4	3

Fig. 1

		Double Row						
No. Units	16	14	12	10	8	6	4	2
No. Braces	16	14	13	11	10	8	6	3

Fig. 2

NOTE:
FOR CRITICAL SHELF LOCATIONS, MINOR CHANGES TO THESE RECOMMENDATIONS ARE ACCEPTABLE.

Fig. 3
Back Brace

Light Loading

Both single and double rows may use sway braces as in Figures 1 and 2. The end and back of the first and last section of each row always contains a sway brace. Every other intermediate and every other back should contain a sway brace. The height location of the sway brace is determined as in Figure 3, where the center line of the cross is "height divided by 3" up from the bottom.

Fig. 4
Back Brace

Fig. 4A
Side Brace

Standard Loading

For rigidity in standard duty applications, a pair of sway braces should be put in every opening at the heights illustrated in Figure 4. Each open end should be braced as illustrated in Figure 4A.

Fig. 5
Back Brace

Fig. 5A
Side Brace

Connection point as close as possible to mezzanine level- may be either above or below level.

M = maximum distance possible - up to and including 30"

d = minimum reasonable distance (e.g. 4.5" - 6.0")

Multi-Level Application

For rigidity in mezzanine applications, two sway braces should be put in every other opening at the heights illustrated in Figure 5. The intervening openings should be braced with one pair of sway braces as shown. The term "d" equals the distance for mounting the sway braces to the post from the floor. Bolt the front of the center shelf and the front of the top shelf and the base strip in place. The open ends should be braced as illustrated in Figure 5A.

For Units Over 99" High

Fig. 6
Back Brace

Fig. 6A
Side Brace

Fig. 6B
Side Brace

Light Loading

For rigidity, Borroughs recommends that one pair of sway braces be installed in each open end and open back. Sway brace height is as shown in Figure 6. Figure 6A and 6B are an end and an intermediate, respectively. The bracing patterns are opposite each other and should alternate from one end of a row down to the other end. Pre-assembly of the two uprights is identical.

NOTE:
FOR CRITICAL SHELF LOCATIONS, MINOR CHANGES TO THESE RECOMMENDATIONS ARE ACCEPTABLE.

Fig. 7
Back Brace

Fig. 7A
Side Brace

Fig. 7B
Side Brace

Connection point as close as possible to mezzanine level- may be either above or below level.

M = maximum distance possible - up to and including 30"

d = minimum reasonable distance (e.g. 4.5" - 6.0")

Standard Loading and Multi-Level

For rigidity, Borroughs recommends that sway braces be used in open backs as illustrated in Figure 7. Sway brace height is as shown in Figure 7. Bolt the front of the center shelf and the front of the top shelf and the base strip in place. Sway bracing for the ends of sections should be installed as shown in Figure 7A for heavy-duty and Figure 7B for multi-level applications.

Seismic Risk Map of the United States

All areas of the United States have been zoned seismically. Each zone indicates the anticipated intensity or severity of a seismic occurrence within that region. Zones range from 0 (least likely) to 4 (most likely) to experience damage.

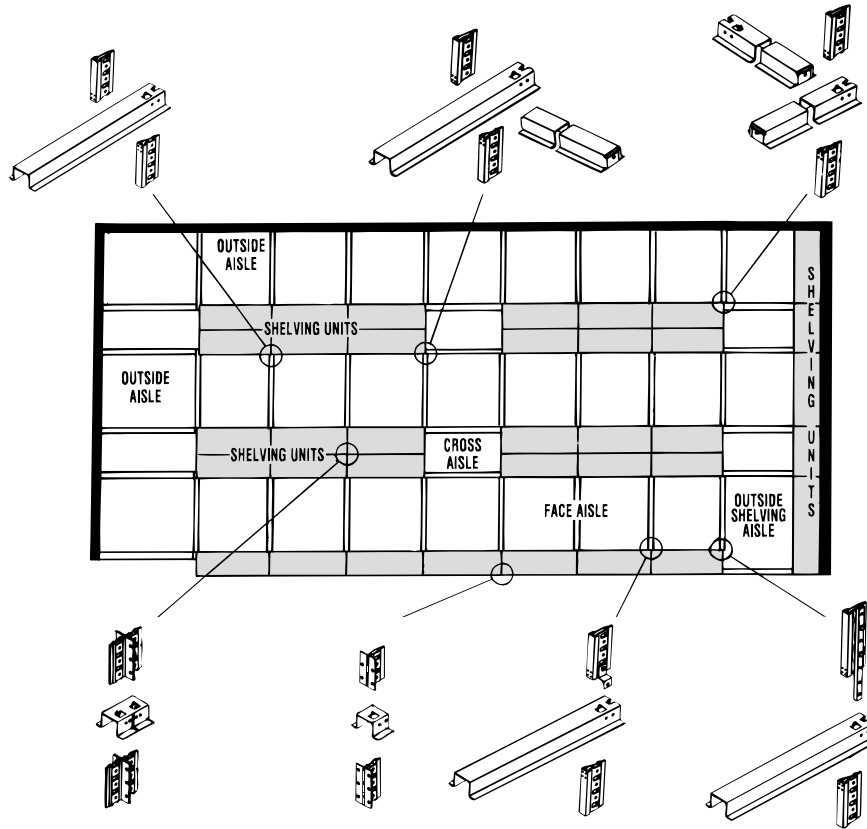

NOTE: Special care should be taken when specifying any system in a highly seismic area.

Portions of this publication reproduce figures/maps from the 1997 Uniform Building Code, Volume 2, International Code Council, Inc., Falls Church, Virginia. Reproduced with permission. All rights reserved.

ICBO and/or ICC and Boroughs assume no responsibility for the accuracy or the completion of summaries provided herein.

General Information

Smooth Ball Bearing
Slide Suspension

Borroughs has drawers for the four most frequently used shelving sizes: 36" wide x 18" deep, 36" wide x 24" deep, 48" wide x 18" deep and 48" wide x 24" deep. Each of these four sizes also has four different height choices: 3", 4-1/2", 6" and 9" high...And, drawers are interchangeable with other drawers in shelving units of the same size. Borroughs' drawers arrange and rearrange to use your space, exactly the way you need it. They are designed to contribute to the efficiency of your storage system as your operation grows and changes. Drawers are rated for up to 400 lb. capacity with an evenly distributed load. Drawers feature a suspension system that allows full extension to access entire contents of drawer.

HD DRAWERS

16 Drawer Sizes

Drawer Sizes	Body Height	Useable Height	36" x 18"	36" x 24"	48" x 18"	48" x 24"
3"	2-1/4"	2-1/2"				
4-1/2"	3-1/8"	4"				
6"	4-5/8"	5-1/2"				
9"	7-5/8"	8-1/2"				

Partitions

Partitions and dividers combine for an almost endless variety of storage spaces to match stored items.

Slotted steel partitions create major drawer interior storage spaces. Partitions slide into slots on drawer walls to span the full width or depth of drawers...And, allow the addition of dividers to further sub-divide the drawer's interior.

Partitions are available in 18" and 24" depths; 36" and 48" widths and 3", 4-1/2" and 6" heights. All partitions are painted #161 Mist Gray.

Dividers

Galvanized steel dividers sub-divide the storage spaces between partitions or partitions and drawer walls. Dividers simply drop into slots in partitions and drawer walls making storage space adjustments quick and easy.

Slots are manufactured in partitions and drawer walls on 1" nominal centers. Divider widths are measured by the number of drawer wall slots the divider spans (i.e. a 3s divider will span 3 slots). Dividers are available in heights to match partitions (3", 4-1/2" and 6") and in eleven widths (3 slots through 13 slots). The 36" wide drawer has 31 slots allowing for up to 10 3s storage spaces. The 48" wide drawer has 43 slots, allowing for up to 14 3s storage spaces.

HD Drawer Dividers

Preconfigured Drawers

Borroughs offers a large number of standard preconfigured drawer interiors frequently ordered for small parts storage...And, for simplicity, these Borroughs' drawers and interiors can be ordered as a complete, outfitted assembly using only one part number.

This, without any surcharge, provides the drawer, including the suspension and handle/label holder, factory installed partitions with essential dividers packaged in one carton. This makes ordering quick and easy...and saves installation time, too!

Example:

HD DRAWERS

Drawer fronts are painted #065 Industrial Gray, #445 White, #C386 Red, #B504 Blue, #F604 Pebble, #161 Mist Gray or #040 Black

- Drawer interiors are painted #161 Mist Gray
- Drawers include full-width aluminum handle/label holder, end caps, paper label and clear plastic label cover
- Drawers packed one per box
- Drawer dividers are galvanized steel
- Drawer partitions are painted #161 Mist Gray and installed in drawer
- Drawer dividers are taped together and packed in drawer
- 9" high drawers use 6" high partitions and dividers
- Drawer slides are packed separately

Preconfigured 36" x 18" Drawers

RIVET-SPAN®

All units include metal framing only.
Decking material must be ordered separately. See Page 43.

*Includes (1) support tie per level except 96" which has (2) support ties.

**Units with channel beams have angle beams with support ties located directly at the floor level.

***Capacities are for steel beams only with evenly distributed loads and do not reflect the capacity of the decking material.

All units shipped K.D.

All units include metal framing only.
Decking material must be ordered separately. See Page 43.

*All units include double rivet angle beams, left-to-right and front-to-back, at the top and bottom beam levels.

***Capacities are for steel beams only with evenly distributed loads and do not reflect the capacity of the decking material.

Shelf units 24" deep or less include only (2) intermediate front-to-back single rivet beams. Units 30" or deeper include front-to-back single rivet beams at every intermediate beam level.

All units shipped K.D.

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7'/84" high x 18" deep unit has a height to depth ratio of 4.67 and should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

**Extra shelf levels 24" deep or less include left-to-right beams only. Extra shelf levels 30" or deeper also include front-to-back single rivet beams.

Beam Profiles

- Single Rivet Beam**
Shelving - standard duty

RIVET-SPAN®

Intermix Beam Families on the Same Beam Level

These beam families can be intermixed without decking problems:

- ◆ Single Rivet Beams
- ◆ Double Rivet Low Profile Beams
- ◆ Double Rivet Z Beams

These beam families can be intermixed without decking problems:

- ◆ Double Rivet Angle Beams
- ◆ Double Rivet Channel Beams

The above groupings cannot be intermixed and support decking.

• InStock in #161 Mist Gray

RIVET-SPAN® Specifications

Specification Data

Rivet-Span® shelving units are made up of posts, side-to-side beams, and front-to-back beams. There are certain **minimum requirements** for beam use to ensure structural stability and safety. For example: all units must have a full "perimeter" of double rivet beams, meaning two side-to-side and two front-to-back, at both top and bottom of unit for stability. There are other requirements, see below.

Preconfigured Units - Include all required beams. Installation instructions (included with shipment) show how to position beams correctly.

Non-preconfigured Units - Follow these guidelines when specifying individual components:

- ◆ All units require a full perimeter of double rivet beams at top and bottom of unit.
- ◆ Single Rivet Beam (SRB) and Double Rivet Low Profile Beam (DRLPB) units 24" deep or less:
 - ◆ do not require SRB's front-to-back at each intermediate level in the unit.
 - ◆ 6'-8' high must have one SRB intermediate level front-to-back, located approximately in the middle of the unit.
 - ◆ 9'-10' high must have two SRB intermediate levels front-to-back, located to divide the height into 3 equal parts.
 - ◆ 11'-16' high must have three intermediate levels; a full perimeter of Double Rivet Beams (DRB) in the middle plus intermediate levels of front-to-back SRB's in the upper and lower halves of unit.
- ◆ Single Rivet Beam (SRB) and Double Rivet Low Profile Beam (DRLPB) units 30" deep or greater:
 - ◆ All units must have SRB's front-to-back at every intermediate level; units 11'-16' must have SRB's front-to-back at every intermediate level PLUS a full perimeter level of Double Rivet Beams (DRB) located approximately in the middle of the unit.
- ◆ Double Rivet Angle Beams (DRAB) and Double Rivet Channel Beams (DRCH) must have front-to-back beams at each beam level to provide decking support and ensure stability. When using DRCH from side-to-side, DRAB must be used from front-to-back.
- ◆ Tie Plates are recommended to tie adjacent Angle Post units together and to ensure structural stability. Tie plates should be used at the top and bottom of adjacent posts with additional tie plates spaced no more than 48" apart. Tie plates are not used on units with T Posts.

Basic Data

Widths

Nominal unit width = 24", 30", 32", 36", 42", 48", 60", 69", 72", 84" or 96"
 Actual single unit width = nominal width + 1/2"

Depths

Nominal unit depth = 12", 15", 18", 24", 30", 32", 36", 42" or 48"
 Actual single unit depth = nominal depth + 1/2"
 Actual back-to-back units depth = combined actual unit depths + 7/32"

Heights

Nominal unit height = 6'/72", 7'/84", 8'/96", 10'/120", 12'/144", 14'/168", 15'/180" or 16'/192"
 Actual unit height = nominal height ± 1/32"

Length of Run

Actual length of run = sum of actual unit widths + 7/32" per adjoining unit

Horizontal Clear Openings

Actual clear opening between angle posts = nominal width - 2-5/8"
 Actual clear opening between heavy-duty angle posts = nominal width - 3-1/4"

Vertical Adjustment

All beams are adjustable on 1-1/2" centers

Vertical Clear Openings

Vertical clearance calculated using 5/8" thick decking material.

RIVET-SPAN® Specifications *(continued)*

Decking Material

Particle board decking, 5/8" (.625) thick, is available pre-cut from Borroughs and your local Borroughs Distributor. It can also be obtained from your local building material supplier. Other types and thicknesses of decking material, such as plywood, structure wood, oriented strand board or wire decking may be desired based upon load or use. These also can be obtained from your Borroughs Distributor.

When supplying your own decking material, cut the decking to the nominal unit size +0" - 1/8" (.125). If single rivet beams or double rivet low profile beams are being used in the left-to-right position, cut the decking material 3/16" (.188) under the nominal unit depth for easier assembly. Similarly, if either of these types of beams are being used in the front-to-back position to support the decking, also cut the decking material 3/16" (.188) under the nominal unit width.

Calculated Post Capacities

Pounds Allowable Load Per Post		
Maximum Beam Spacing In Inches	Angle Post	Heavy-Duty Angle Post
48"	1,170	1,750
42"	1,315	1,960
36"	1,460	2,180
30"	1,605	2,390
24"	1,750	2,610
18"	1,896	2,830
12"	2,040	3,050

◆ Maximum beam spacing is determined as the distance between left-to-right beams or front-to-back beams, whichever is greater.

◆ Capacities are for vertical loads only where seismic forces are not a factor.

Beam Capacities

69"	-	-	600	900	460	1,100	1,900
72"	-	-	600	900	450	1,050	1,700
96"	-	-	-	-	240	650	1,300

*One support tie except 96" which has two.

**The longest pair of beams at a given level determines the capacity for the entire level. Capacities are for steel beams only and do not reflect the capacity of the decking material.

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7/84" high x 18" deep unit has a height to depth ratio of 4.67 and should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.

Slotted Angle

Catalog No.	Size	Wt. Per Bundle	Qty. Per Pack	List Price
				
1.25" x 1.25", 14 gauge				
•SA125-10	10'	57.0	10/bdl.	\$174.02/bdl.
Includes 75 bolts and nuts and 30 washers per bundle				
				
1.57" x 1.57", 14 gauge				
•SA160-10	10'	70.0	10/bdl.	\$192.52/bdl.
Includes 75 bolts and nuts and 30 washers per bundle				
				
2.38" x 1.62", 14 gauge				
•SA225-10	10'	85.0	10/bdl.	\$229.90/bdl.

Load in pounds.
NOTE: Combination sections are bolted together on 6" centers. All figures refer to a pair of beams carrying evenly distributed loads. For concentrated loads, these figures should be halved. The loads shown above are those which give a safety factor of 1.5 while limiting deflection.

10128-001	Pegboard Decking (natural)	48" x 36" x 1/4"	14.0	28.08
10129-000	Cardboard Sleeves (8 openings 5-1/2" x 24") (white exterior, natural interior)	48" x 48" x 24"	8.9	\$111.74/set

Note:

Rivet-Span automotive pre-configured units with (-) are basic units and do not include any specialty components other than divider arms, loop divider bars, wall ties or back spacer ties. Models with (+) are complete units and include all necessary wood decking/pegboard, cardboard sleeves, acrylic rods, J rails and hooks, or magnetic label holders.

Rivet-Span automotive pre-configured units' double rivet beams are Double Rivet Angle Beams except on Tire Racks which have Tire Beams in the left to right positions.

Support Ties not included in any pre-configured Rivet-Span automotive units. Refer to Beam Capacity Chart to access your application

Rivet-Span horizontal molding units' acrylic divider rods must be field cut to length.

All units shipped K.D.

RECORDS STORAGE

Important:

Wall, floor or top tie anchoring is recommended for units when the height to depth ratio exceeds 4.

Example: A 7'3"/87" high x 18" deep unit has a height to depth ratio of 4.83. Two 8'3"/99" high x 12" deep units back-to-back have a height to depth ratio of 4.12. These units should be attached to a firm restraint, such as a floor, wall or tied overhead across the aisle to an opposite upright assembly.
