PROCEDURES STORAGE

During surgery, quick, easy access to sterile supplies is critical. Spacesaver's® operating room and procedures storage, balances environmental control with ready accessibility to keep you operating smoothly — and maximize storage density in your surgical suite.

Spacesaver's durable stationary shelving options are ergonomically designed to improve visibility, accessibility, and organization of sterile supplies in and outside the OR. Glass or Plexiglas doors keep supplies dust free, and allow staff to quickly spot catheters, coronary stents, dressings and other items. Adjustable shelving accommodates changing medical supply packaging sizes.

STERILE STORAGE

Spacesaver's efficient, flexible sterile supplies storage gives you better security and inventory control, too. Conveniently store pre-packed surgical procedure kits, prepared case carts and sterile bulk materials (like sutures, etc.) close to the point of need.

STERILE STORAGE

Spacesaver's storage systems, such as FrameWRX® — with wire baskets, are adjustable and re-configurable to accommodate the changing needs of the hospital.

CONTROLLED CLIMATE

SOUTHWESTSOLUTIONSGROUP

Central Sterile Storage Supply is a core element of the hospital's infection control program. After used, medical supplies are routed through sterile processing; they need to be efficiently stored and easily retrieved on an as needed basis.

STERILE STORAGE

Wire shelving within our storage solutions reduce surface area and further enhance infection control.

Clear Plexiglas fronted bins make visual location of supplies easier and faster.
