Exchange Carts

Meets all requirements for supply exchange in any healthcare environment. With various shelving configurations, caster styles, accessory packages, and various sizes, these exchange carts are the ultimate in versatility. Shelving features the patented QuadTruss® design, increasing shelving strength up to 25%. Posts are grooved and are numbered on one-inch increments, therefore enabling shelving to be adjusted up and down. Open-wire construction reduces dust and contamination build-up.

ECE Series

5 wire shelves. 63" chrome posts. Dolly frame with wraparound bumper. 8" polyurethane casters, two with brake. Side and back enclosure panels. 1 or 2 slide assemblies. 2 or 4 tote boxes 6" deep with box dividers. 4 or 6 shelf dividers. 12 plastic shelf markers.

ECES Series

5 wire shelves. 1 s/s solid shelf. 63" chrome posts. Dolly frame with wraparound bumper. 6" polyurethane casters, two with brake. 1 slide assembly. 2 tote boxes 6" deep with box dividers. 2 or 3 shelf dividers. 6 plastic shelf markers.

Instrument Tables

Provide an all-stainless work system for use as back tables in the O.R. suite during surgery, or as mobile work stations for any department. 18 gauge 300 series stainless work surface welded and finished on all four corners. Legs and H-frame constructed of 16 gauge 300 series 1"-diameter stainless steel tubing. Optional undershelf of 18 gauge 300 series stainless steel. 4" x 1" resilient swivel stem casters. 34" overall height.

Suture Carts

Open wire design and slope of shelves allow instant identification and reduces dirt and dust build-up. Chrome plated wire shelves, each includes three dividers. Shelves adjustable on 1" vertical increments without the use of tools. Slope of shelves is also adjustable from 0° to 30°, simply by raising or lowering front or back truss brace. Truss braces and posts are chrome plated. Posts have 1" diameter 16 gauge steel tubular wall, which ensures structural strength and stability. Entire assembly is further stabilized at the top and bottom with three-sided truss reinforcement braces for increased strength and stability. 5" swivel casters with polyurethane tread.

Cassette Transfer Cart

Ideal for transport for any hospital with a unit dose medication system; up to eight cassettes, in a variety of sizes. Cart has safety edges, free of bacteria-gathering crevices. Dolly frame with wraparound bumper features 6" casters for mobility. Three 24" x 48" chrome-plated wire shelves mounted to dolly base. Enclosure panels provided to help transport cassettes safely.

width	length	height	model #
24"	48"	70"	CTC2448C

Clinic Treatment Cart

Suited for use in any treatment area to hold supplies and instruments. Designed with cleanliness in mind—all components have safety edges and are free of bacteria gathering crevices. Constructed of 300 series stainless steel. Overall height to the work surface of 35". Wire ledge on three sides of the work surface. Two pull-out drawers with positive stops, one open shelf, and one pull-out tray. 5"-diameter swivel plate casters—two with brakes.

width	length	model #
17"	24½"	CTC1724

Inhalation Therapy Cart

40" height. Top and bottom PVC-coated tank holding grids are built on 4½" centers, to store up to 12 cylinders. Two utility handles and wire shelf base are chrome-plated. 5"-diameter conductive casters, two with brake.

width	length	model #
20"	27"	GCC1

Sterile Wrap Carts

Safe and convenient place to hang or store wraps. Bottom wire shelf (standard) can hold extra or odd size wraps. Four support bars with a wire shelf at the base and a three-sided channel frame at the mid height and top. 5" polyurethane swivel casters.

Mobile Garment Racks

Convenient storage or transportation of coats, uniforms, or garments. Wire shelves feature patented QuadTruss® design —patent #5,390,803. Wire design allows for vertical air flow. Top wire shelf for hats or flat items. Bottom wire shelf for drying shoes or boots; some models have additional solid shelf below bottom wire shelf to catch moisture. Four mild steel chrome plated posts with adjustable feet. Two wire chrome plated shelves. 1" diameter, chrome-plated coat hanger tube. Height of hanger tube allows for long items to be hung. Mobile racks feature 5" polyurethane tread casters with rubber donut bumper.

Linen Carts

Any number of combinations can be made to customize any linen cart for a specific use. Open-wire construction promotes higher visibility and permits greater air circulation which helps reduce dust and contamination build-up, and increases the effectiveness of fire-suppression systems. Posts are numbered on vertical 1" increments to ensure fast and level assembly; shelving can be adjusted up and down every inch for optimum cart configuration. All components are chrome-plated.

Basket Carts

All-purpose folding basket cart is durable, versatile, and engineered for many applications: mail, pharmacy, lab, medical records and other small tasks. Easy to assemble and collapsible. Chrome-plated tubular frame. Poly-coated wire baskets and basket support. Four 3" swivel casters with rubber wheels.

description	model #
(2) 6" baskets	BC18
(1) 6" / (1) 12" basket	BC18-1

Mail Cart

Designed to handle internal-external mail distribution. Stationary basket design eliminates movement. 11" deep top basket with file retainers, and 7" deep bottom basket for boxes. Nickel-chrome plated finish. Holds 120 letter or legal-sized hanging folders. Two 5" swivel casters on front, and two 10" rigid roller-bearing casters on rear. 1" round tubular frame.

width	length	height	model #
24"	42½"	38"	MC-1

Storage Bins

The perfect solution to organizing or storing small, easy-to-lose items. Light weight but durable.
